

Partners in Innovation; Design & Development

<p>AllRound Technology (ART)</p> <p>AllRound Technology develops electronics, embedded systems your activities / offer and mechatronics for companies in the medical and high-tech and added-value industries. We have the know-how, relationships, tools and knowledge to help you speed through product development, production set up, and process optimization. We also have knowledge of (medical) certification.</p>	<p>Erik Jan de Jong</p> <p>053 2032313</p> <p>info@allroundtechnology.com</p> <p>Enschede</p> <p>www.allroundtechnology.com</p>
<p>Avisi Solutions</p> <p>Software Requirements Workshop: translate innovative ideas in to software platform(s) to innovate your business to the next level.</p> <p>Custom software development (Backend). Development regards new platforms or integration of multiple platforms together.</p> <p>In-house secondment of staff (detaching), Avisi' IT-development teams varies between 4 to 6 full-time developers.</p>	<p>Shanin Habbah</p> <p>06 184 09 430</p> <p>s.habbah@avisi.nl</p> <p>Arnhem</p> <p>www.avisi.nl</p>
<p>Tweede Golf</p> <p>As a small software development service provider we help tech start-ups, scale-ups and innovative SMBs to create their software powered innovations. We have existed since 2009 and mainly work on web development and embedded software development projects. We also occasionally build an app. Targeted markets currently include impact start-ups, MedTech and IoT. With our Team-as-a-service offering called Hire a team, you get to work with a 2 - 3 people team consisting of our own people that can prototype for you, help out with research if needed and can get you up and running fast with building an MVP.</p>	<p>Hugo van de Pol</p> <p>024 301 04 84</p> <p>hugo@tweedegolf.com</p> <p>Nijmegen</p> <p>https://tweedegolf.nl</p>
<p>TOPIC Embedded Projects</p> <p>TOPIC Embedded Projects has a no-nonsense attitude. With a true family-driven character, we offer skilled technical and added-value consultants with first-class technical skills in embedded software and digital hardware. For example, we offer complete development projects on location or under our own management from our futuristic office in Best. TOPIC Healthcare Solutions introduces clinical</p>	<p>Rieny Rijnen</p> <p>0499 33 69 79</p> <p>rieny.rijnen@topic.nl</p> <p>Best / Nijmegen / Delft</p> <p>https://topicembeddedproducts.com/</p>
<p>Unitron Group</p> <p>Unitron creates high-tech LS&H products from design to prototype, and from certification to serial production. We have been doing this for global players for more than 30 years. Together we are taking healthcare to the next level.</p>	<p>Fabian van Dommelen</p> <p>0117 307 300</p> <p>f.vandommelen@unitron.nl</p> <p>Ijzendijke / Hengelo</p> <p>https://www.unitron.nl/</p>
