

## Partners in Innovation; Legal

### **BG.Legal**

We provide legal advice regarding aspects like IP protection, contracts, regulatory (medical device), advertising, negotiations with investors, etc. We have a special offer for tech startups (including a discount on our rates). We also support the use of RVO vouchers to have (part of) our services paid for.

### **Poelmann van den Broek Advocaten**

Smart-talking posh lawyers? Not at Poelmann van den Broek. We've been the stalwart warriors among lawyers for more than 40 years now. We master our specialist areas into the smallest detail. Most of our clients are business owners. We know their industries, we work with them closely and we are not afraid of sticking our neck out in order to get them results. On the defence if we have to, on the attack if we can. But always fighting with heart and soul. And if there's more to gain? We'll go for it. Because the fun thing about rules is finding the limits. So we do. Especially if you, the client, will be better off because of it.

Our legal expertise is split up across the following service areas: Intellectual property and ICT, Labour, Construction, Lease and immovable property, Environment and government, Business and Education, Tendering and competition.
